

YOUR ONE-STOP SOURCE

IAC

INDUSTRIAL ACCESSORIES COMPANY

FOR ALL YOUR PNEUMATIC CONVEYING, DUST COLLECTION AND STRUCTURAL STEEL NEEDS

Founded in 1986, Industrial Accessories Company is a fast-track, high-technology designer and fabricator of pneumatic conveying, dust collection, bulk material handling equipment, structural steel detailing and fabrication.

Since our inception, IAC has produced thousands of systems for a wide variety of clients and industries. In fact, our management team and project engineers have a combined experience of over 200 years in the field.

Located in the Kansas City area, IAC also keeps field offices on the east and west coasts to be responsive to our customers. Our manufacturing facility is located in Kansas City, MO - minutes from our corporate office, which allows us to keep a close eye on quality control. IAC's warehouse, located in Olathe, KS, is stocked with components and parts for not only IAC's equipment, but for competitive systems. Our O.E.M. (original equipment manufacturer) status gives us the discounted buying power to provide replacement parts for all brands of equipment at very competitive prices. IAC also stocks tubesheets, clean-air plenums, and critical blower components for quick turnaround of custom orders.

IAC is a "complete OEM" - meaning you can also count on IAC for field service, turnkey installations, reconstruction services, and diagnostic analysis on your existing systems.
